LEAD UX/ UI DESIGNER

Rober Toro

5+ years of experience in fintech, e-commerce, and DX consulting. Expert in leading end-to-end product definition, from service blueprints to localized launch strategies. Directly managed and mentored a small team (2023–2025), establishing QA workflows that improved output consistency. Proven track record of securing internal budgets for 0→1 ventures and coordinating cross-border engineering teams (JP/SG/CN/NZ/). Supported conversion-focused Shopify improvements across PDPs, navigation, SEO, and page performance.

BA in Chinese Language

Key Projects (Product Strategy)

Futureverse · JP Localization & GTM (2024–2025)
Led JP localization and onboarding optimization to drive market entry. Resulted in wallet registrations of +25–35%, with more engagment across our Line and Webinars.

Yogibo Singapore (E-commerce) (2023–present)
Owned Shopify UX/UI performance strategy. Improved LCP speed (3.2s → 1.8s) and optimized mobile flows, contributing to +15–22% orders.

ROBODACHI / Planet of Robots (Lead Product Designer)
Prototype/MVP (2023) / Internal Approval Stage (2024)
Led 0→1 internal venture, defining game loop, NFT economy, and L1/L2 architecture. Delivered brand and feasibility strategy that secured internal production budget (¥300k). v

Work Experience

CTIA LTD — Osaka, Japan
Lead UI/UX Designer | Apr 2023 – Present

- **Team Leadership:** Lead team of 2 junior designers, implementing QA checklists that standardized output across JP/CN teams.
- **Design Ops:** Architected a multi-product design system (Tokens Studio), reducing design-to-dev clarification cycles by ~22%.
- **Strategy:** Defined build-vs-buy frameworks, cutting delivery costs by 12–18% and reducing integration risk.
- **Global Coordination:** Aligned UX with legal/compliance for blockchain platforms across cross-border engineering teams
- **Stakeholder Management:** Led key accounts, turning complex requirements into clear roadmaps and specs.

UI/UX & Graphic Designer | Mar 2020 – Mar 2023

- Produced high-fidelity UI, wireframes, and campaign visuals (incl. TAAS) across web/mobile.
- Implemented CMS/storefront templates; collaborated with CN devs through specs and CSS adjustments.
- Standardized handoff workflows and early component libraries, forming the base of the future Design System.

Mujin Bar (Kintetsu Railway) · PoC (2023) — Lead UI/UX Designer
Orchestrated UX and business design for unmanned alcohol sales. Collaborated with legal and hardware experts to build compliance-safe service blueprints, securing risk-committee approval for the pilot.

PeerChain (Kyoto University) · PoC (2024) — Lead UI/UX Designer
Co-developed business logic and UX for a blockchain peer-review platform. Delivered tokenomics and system blueprints that achieved feasibility approval on the 1st evaluation.

Art Ice Café | Full-stack Design & Branding (2023)
Coded a lightweight site (HTML/CSS/JS) and produced all brand assets. SEO optimization contributed to a 150–250% increase in organic visits.
